# Promoted Listings Standard

# API Updates 2022

- Define rules to automatically promote new listings with Promoted Listings Standard.
  - API/UI parity - supports up to 10 rules per campaign

## 40% of all listings using Promoted Listings Standard are promoted via Automated Campaigns

"We upload many new products every day and it is good that they are uploaded automatically to the campaigns as well." - **DE Seller**

"Now I know I can keep going adding new products and I will not have to worry about forgetting one. This is a great tool." - **US Seller**

- Auto update to the most recent Suggested Ad Rate
  - Auto update to latest ad rate when market dynamics shifts
- Seller Eligibility check
  - View documentation for the `getAdvertisingEligibility` endpoint

Create a rule for your listings  
Current and future listings will be automatically added or removed from this campaign according to the rule you create.

Categories: All (dropdown) Price: From \$ (input) to \$ (input) Brand: All (dropdown) Condition: All (dropdown) [Reset](#)

Qualifying listings	Categories	Price range	Brand	Condition
3	All	None	All	All

Choose your ad rate strategy

Automated suggested ad rates are applied to all listings by default. Suggested ad rates help you find the optimal balance between performance and cost.

Automate suggested ad rates  
We'll automatically keep your listings at their daily suggested ad rate.

Optional selections:

Set ad rate cap  
25.0 % Set the maximum ad rate you'd be willing to pay. Your ad rate will never exceed this percentage.

Adjust suggested ad rate  
0.0 % Set the percentage you'd be willing to pay below (-) or above the suggested ad rate. Ad rate minimum of 2% remains in effect.

Apply fixed ad rate  
5.0 % Set a single ad rate to apply to all listings.

The image features the eBay logo in white lowercase letters, centered on a dark blue background. A large, light blue circular shape is partially visible on the left side of the frame, overlapping the dark blue background. The logo consists of the word "ebay" in a sans-serif font, with the 'y' having a distinctive upward curve.
